

THE KSM PROJECT

is a proposed gold/copper mine, located 65 kilometres north of the town of Stewart, BC.

The KSM Project

BC

Proven and probable reserves totalling:

38.8
Million ounces of gold

10.2
Billion pounds of copper

183
Million ounces of silver

207
Million pounds of molybdenum

Seabridge Gold acquired a 100 percent stake in the KSM Project in 2000. Since 2006, Seabridge has spent more than \$244 million in exploration, engineering and environmental work to move the proposed mine toward production. In 2014, the KSM Project received environmental approvals from both the Provincial and the Federal governments. Early stage construction permits were also obtained for camps, roads and site preparation work.
