

THE KSM PROJECT

is a proposed gold/copper mine, located 65 kilometres north of the town of Stewart, BC.

Proven and probable reserves totalling:

38.8
Million
ounces of gold

10.2
Billion
pounds of copper

183
Million
ounces of silver

207
Million
pounds of molybdenum

KSM Mining ULC, a subsidiary of Seabridge Gold Inc., is the holder of the KSM Property. Since 2006, more than \$313 million has been spent on exploration, engineering and environmental work to move the proposed mine toward production. In 2014, the KSM Project received environmental approvals from both the Provincial and the Federal governments. Early stage construction permits were also obtained for camps, roads and site preparation work.
