

SEABRIDGE GOLD

Seabridge Gold Inc. is seeking a full-time **Health, Safety and Security Manager**. Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

The **Health, Safety and Security Manager** will provide leadership, direction, and support to develop and implement an effective integrated management system for Health, Safety, and Security.

Key Responsibilities

Responsibilities for this position may include but not limited to:

- Set long-term Health, Safety and Security strategy/compliance direction
- Accountable for ensuring Health, Safety, and Security execution plans are developed and implemented in support of annual deliverables
- Management of Contract safety teams for KSM Project
- Ensure compliance with governmental safety regulations and the Mines Act
- Develop a management operating system to ensure that clearly defined processes are functional and maintained to manage business requirements and potential risks
- Embed a culture of continuous improvement and champion a safe and healthy work culture
- Conduct regular safety performance reviews and assessments to ensure that facility standards and project sites follow governmental regulations
- Create emergency preparedness program that has strong connection to identified project risks to mitigate impacts
- Communicate effectively with projects and all levels of management to support and participate in the development of effective safety, occupational health, and training programs
- Develop, implement and manage COVID-19 testing and Alcohol and Drug programs
- Manage safety summary reporting, performance measurements, and results
- Develop annual and long-range safety, health, and training goals, objectives, action plans, and the supporting budget

Education, Skills and Experience

- University degree or post-secondary diploma in either Occupational Health & Safety or business along with professional accreditation such as a Canadian Registered Safety Professional (CRSP) designation. Equivalencies will be considered.
- Minimum of 8 years proven experience in occupational and/or process safety with a minimum of 3 years' experience at management level
- Expertise with provincial legislation, a strong working knowledge of industry best practices and demonstrated experience with implementing health, safety and security systems and practices
- Proven ability for problem-solving and achieving sustainable results
- Proficient computer literacy, oral and written communication skills, strong interpersonal skills

- Ability to use data analytics to continuously improve safety performance
- Outstanding influencing skills, proven ability to relate well to other people in a wide range of contexts and levels; as well as working collaboratively with Indigenous Partners
- Proven ability to build positive relationships with key stakeholders
- Demonstrated capacity to execute plans and hold self and others accountable for performance and deliverables

Location
