

SEABRIDGE GOLD

Seabridge Gold Inc. is seeking a seasonal **Field Manager** at our Iskut Project- Johnny Mountain Mine site. This position is required from March to end of November 2023.

Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

This position will oversee the multi-year reclamation and closure program at our Iskut Project- Johnny Mountain Mine site. The role is responsible to oversee the team conducting the closure and reclamation activities at Johnny Mountain, including but not limited to waste rock movement, building deconstruction, in-situ hydrocarbon remediation and revegetation.

Key Responsibilities

Key responsibilities for this position may include but not limited to:

- supervise and mentor multiple contractors and consultants performing various daily technical tasks
- lead safety initiatives, periodic inspections and evaluate contractor safety performance
- Support planning and execute daily tasks
- effectively communicate with all project personnel, on site and off site
- manage complex schedules and ability to reprioritize while maintaining progress toward goals
- monitor all work in progress during field execution
- complete weekly summary reports and distribute to the appropriate internal stakeholders

Education, Skills and Experience

- Degree or Diploma in science, engineering, environmental or technical -related field, or an equivalent combination of education and experience
- Minimum 10 years of experience in mining or construction including management of multiple crews and working with indigenous communities
- Demonstrated project management experience
- Proven leadership abilities in leading multi-discipline and diverse teams
- Strong knowledge and experience in directing earthwork moving equipment
- Solid understanding in managing field execution projects including large earthmoving activities
- Proven ability to manage engineering, project controls and environmental disciplines
- Experience working in exploration camp environment

- Highly organized with exceptional attention to detail and critical thinking, able to manage competing priorities
- Excellent interpersonal, oral, and written communication skills and the ability to communicate effectively
- Strong commitment to working in a safe, socially responsible manner with demonstrated safe work practices
- Valid BC drivers license with no infractions over last 5 years
- Legal authorization to work in Canada without the need for sponsorship
-

Location

Johnny Mountain Mine is located near a remote exploration camp 60 km from Stewart, BC. The work rotation will be 2 weeks on site followed by 2 weeks off site.

Our Offer

- An exciting opportunity to contribute to the success of the business and reach your full potential
- Competitive compensation

Closing Date: February 10, 2023
