

SEABRIDGE GOLD

Seabridge Gold Inc. is seeking a full time **Environmental Specialist (2-year term contract)** to join our office located in Smithers, British Columbia.

Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

This position will directly report to the Environment Manager and the successful candidate will assist in the implementation of the various environmental programs that support Seabridge projects.

Key Responsibilities

Key responsibilities for this position may include but not limited to:

- Assist in the oversight of baseline environmental programs including water quality, hydrology, geochemistry, fisheries and wildlife among others.
- Review contracts, work scope and budget management.
- Work and liaise with the compliance team, permitting team and environmental site supervisors.
- Monitor all work in progress during field execution.
- Review and compile annual reports, management plans and permit reports.
- Provide technical support and guidance for environmental programs.
- Participate in environmental projects as assigned

Education, Skills and Experience

- Bachelor or Master's degree in science, engineering, environmental or technical -related field, or an equivalent combination of education and experience.
- Minimum 3 years of experience in mining or construction.
- Good organizational, advanced computer (Microsoft Office) skills, communication and organizational skills (including strong technical writing skills).
- Knowledge of British Columbia and Federal permitting and environmental standards is required.
- A willingness to research and learn a diverse field of scientific and traditional Indigenous knowledge is required.
- Highly organized with exceptional attention to detail and critical thinking, able to manage competing priorities.
- Excellent interpersonal, oral, and written communication skills and the ability to communicate effectively.

- Strong commitment to working in a safe, socially responsible manner with demonstrated safe work practices

Location

This position will be based in Smithers, BC with travel requirements to the project sites or other offices periodically (less than 10% of position).

Our Offer

- An exciting opportunity to contribute to the success of the business and reach your full potential
- Competitive compensation
- Comprehensive health and wellness benefits

Apply

We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veterans' status, Indigenous status, or any other legally protected factors.

Please apply through email to hr@seabridgegold.com and attach your Cover Letter and Resume in Word or PDF format. Thank you for your application, however, only those selected for an interview will be contacted.
