

SEABRIDGE GOLD

Closing Date: March 1, 2024

Seabridge Gold Inc. is seeking a seasonal **Logging Geologist (seasonal role)** to join our exploration activities this season.

Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

Position Summary

Reporting to the Senior Geologists and Director of Exploration, the Logging Geologist will be focused primarily on early-stage exploration activities at the Iskut project in BC's prolific Golden Triangle in northwestern British Columbia or 3 Aces project in Yukon Territory. The role is a fly-in/fly-out position, working on a regular rotational schedule for the duration of the 2024 exploration program (June-October).

Our ideal candidate will have a dedicated commitment to workplace health and safety and have a demonstrated ability to maintain the highest standards of quality in all aspects of work. They will also be an individual with practical field experience in a similar exploration role and have a strong working knowledge of porphyry deposit exploration, or structurally controlled gold deposit exploration.

Location: Iskut Project (Northwestern BC)/ 3 Aces (Yukon Territory)

Start Date: May/June **End Date:** Mid-October 2024 (weather dependent)

Key Responsibilities

- Work with Seabridge Gold's exploration project team to conduct exploration activities including but limited to drill core logging and sampling, collection of structural data from oriented drill core, and maintaining and monitoring core processing workflows and procedures.
- Contribute to geological interpretation of the project areas including data integration and 3D modelling and prepare recommendations for subsequent exploration.
- Drill management including sighting drill pads, line-ups, monitoring daily production, ensuring the integrity of downhole surveys, and pre- and post drilling inspections.
- Prepare/contribute to technical reports and presentations on real-time exploration program results and highlights.
- Demonstrate active leadership in promoting a strong safety culture by ensuring that all exploration activities are conducted in accordance with Seabridge's Health and Safety Policies.

- Provide active leadership by assisting in the supervision of geotechnicians and core cutters and provide mentorship to junior colleagues.
- Perform other duties as assigned.

Education, Skills and Experience

- Completion, or near completion of a B.Sc. degree in geology/geoscience from an accredited university.
- Eligible for Professional Registration and/or Geoscientist in Training (GIT) status in a Canadian jurisdiction.
- Minimum of 1-4 years previous experience in core logging and drill management within an exploration role and a firm understanding of core processing workflows, including oriented drill core.
- Porphyry deposit geology and model knowledge with an understanding of exploration methodology (grassroots exploration to advanced exploration).
- Orogenic gold deposit geology.
- Geological mapping of structurally controlled economic deposits.
- Strong computer skills with proficiency in the use of Microsoft Office Suite (Excel, PowerPoint, etc.) GIS software; experience with Leapfrog Geo, ioGAS, and tablet-based data capture.
- Demonstrable ability to operate with a high degree of flexibility with the ability to adapt to a rapidly changing, high-demand work environment and re-prioritize tasks as directed by exploration program needs.
- Ability to work independently and with minimal supervision.
- Outstanding communication and time management skills.
- Ability to work in challenging physical environments in all weather conditions with physical ability required for working in mountainous terrain.
- Physical fitness and the ability to safely lift and carry core boxes and other objects up to 50lbs.
- Ability to work and live in a remote camp setting for extended periods.
- Familiarity with work around helicopters.
- Legally entitled to work in Canada.
- Valid class 5 driver's license.
- Experience operating vehicles safely in a work environment.

Schedule

The role requires travel to site on a scheduled rotation of up to 21 days in and 7-10 days off from May to October 2024 (the end of field season is determined by seasonal weather conditions).

Our Offer

Seabridge offers a competitive remuneration package with all camp and travel expenses fully paid. We provide a supportive work culture that prides itself on diversity, teamwork, professionalism, and above all, employee health and safety. Apply today for an exciting opportunity to contribute to the success of a committed explorer and be a part of the next big discovery in BC.

Apply

Please apply through email to hr@seabridgegold.com and attach your Cover Letter and Resume in Word or PDF format. Thank you for your application, however, only those selected for an interview will be contacted.

Equal Opportunity Statement

Seabridge Gold is proud to be an Equal Employment Opportunity employer and we are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veterans' status, Indigenous status, or any other legally protected factors.
