

SEABRIDGE GOLD

Seabridge Gold Inc. is seeking a seasonal **Geotechnician/ Geology summer student** to join our exploration activities this season.

Seabridge Gold was founded in 1999 and holds a 100% interest in several North American gold projects. Seabridge's assets include the KSM and Iskut projects located near Stewart, BC, the Courageous Lake project located in the Northwest Territories, the Snowstorm project in the Getchell Gold Belt of Northern Nevada and the 3 Aces project in the Yukon Territory. Seabridge strives to provide opportunities for people who have talent, passion and integrity and the desire to work within an organization that values and supports them. For further information on our company, please visit www.seabridgegold.com.

This is a great opportunity for an individual to join our team. This role will support implementation of 2024 exploration program at our Iskut Project by participating in and conducting field activities such as geological mapping, core logging, sampling.

Key Responsibilities

- Assist senior geologists with various day to day mapping, sampling, camp, and drilling duties.
- Geological mapping, collection of structural data in all weather conditions.
- Logging of RC chip samples.
- Drill core movement and other general labour activities as required.
- Assist in the collection of geological information that requires strong geological background.
- Perform other duties as assigned.

Education, Skills and Experience

- University geology program. Completion of year 2 or higher.
- Previous field experience is an asset
- Valid Driver's license.
- Experience operating vehicles safely in a work environment.
- Legally entitled to work in Canada.
- Strong computer skills with proficiency in the use of Microsoft Office Suite (Excel, PowerPoint, etc.).
- Familiarity with GIS software and spatial data; Leapfrog Geo, ioGAS, and tablet-based data capture preferred.
- Physical fitness and the ability to safely lift and carry core boxes and other objects up to 50lbs.
- Ability to work in challenging physical environments in all weather conditions with physical ability required for working in mountainous terrain.
- Strong communication skills.
- Able adapt to a rapidly changing working environment and re-prioritize tasks as new information is gathered.
- Strong ability to self-learn.
- Ability to work and live in a remote camp setting for extended periods.
- Ability to easily travel to Terrace, BC

Location

Iskut Project (Northwestern BC)

Schedule

The role requires travel to site up to 21 days in and 10-14 days off rotation from May to September/October 2024.
